About Moon Pearls

Moon Pearls is a remedy specifically designed for regulating female physiology in women of all ages, with a particular focus on normalizing menstrual flow. It combines the classical century remedies Fuzi Lizhong Tang (Rectify the Middle Decoction with Aconite) and Jiao Ai Tang (Ass-Hide Gelatin and Mugwort Decoction), reflecting the fact that most female disorders originate from pathological changes in the archetypal mother organs spleen and liver. Herbs that move blood and simultaneously control bleeding are added, making Moon Pearls a suitable remedy for uterine fibroids and ovarian cysts. On a more constitutional level, Moon Pearls can regulate the endocrine system in peri-menopausal situations.
